

YOU BRING THE MISSION

WE BRING SUCCESS

INFORMATION TECHNOLOGY CAPABILITIES

Nangwik Services Information Technology Services

Nangwik Services has provided Information Technology services to a number of federal agencies and military programs, including:

General capabilities:

- End-to-End IT Support Services
- Enterprise Security
- Information Assurance

Detailed capabilities:

- Develop Knowledge Management Suites
- IT security event identification and reporting
- IT security event log filtering and analysis
- SIEM enterprise system development and configuration
- Integrate, collect and analyze event log dataflows
- SOC policy and procedure development
- NIST 800-53 AU Controls implementation
- Create and maintain IT security threat monitors
- Document both physical and logical network architecture
- Provide assistant to IT security event forensics

GENESIS III Nangwik Services provides comprehensive logistics, engineering and facilities lifecycle support of complex, classified, compartmented and unique ground-based and airborne reconnaissance and electronic intelligence collection and production systems. This includes tactical environmental control units, tactical power generation, and information technology systems, as well as administrative, engineering, technical, logistical and environmental support.

U.S. MARINE CORPS INTELLIGENCE SCHOOLS Nangwik Services provides Coordination Managers, SIGINT Trainers, Language Instructors, Integrated Logistics Support Technicians, Role Players and Courseware Developers under the Marine Corps Intelligence Training Enhancement Program (ITEP).

NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION (NOAA) Nangwik Services provides an infrastructure-supporting enterprise for NOAA Cyber Security Center (NCSC). We fulfill a complete and comprehensive IT Security infrastructure and presence. This includes the NOAA Computer Incident Response Team (NCIRT) at the NOAA Headquarters in Silver Spring, Md., the NOAA Security Operations Center (SOC) in Fairmont, WV, and satellite NCIRT operations in Boulder, Colo. and Seattle, Wash.

For more information on Nangwik Services Information Technology capabilities, contact:

Peyton Brauer
Business Development Manager
peyton.brauer@nangwik.com

The Nangwik team assists in the development and publishing of a complete set of documentation to support the operation of the NCSC, defining policies and procedures for the Enterprise, and documenting the installation and maintenance of all systems.

YOU BRING THE MISSION

NANGWIK SERVICES, LLC

An 8(a) ANC Owned Subsidiary of Cherega Corporation

WE BRING SUCCESS
